SUMMARY

Enthusiastic developer with expertise in web/mobile development, DevOps, and data science, including AI/ML techniques.

EDUCATION

Bachelors of Science in Computer Science
Abasyn University
2020 - Present

SKILLS

Web Development

HTML CSS JavaScript Bootstrap React JS Netlify

Mobile Application Development

Dart Flutter Android Studio

DevOps

Linux Shell Scripting Docker Git AWS

Version Control System

GitLab GitHub Bit Bucket

Data Science / Artificial Intelligence / Machine Learning

Python Pandas NumPy Matplotlib Scikit-learn Data Preprocessing Regression Models
Classification Models Google Colab Jupyter Notebook

PROJECTS

EC2 Web Deployment Pipeline

<https://gitlab.com/abdullah-k18/devops-final-project>
Created an index.html page, containerized it using Docker, uploaded the image to Docker Hub, implemented a CI/CD pipeline with GitLab CI, and deployed the page on an EC2 instance.

GitHub Profile README Generator

<https://readme4github.netlify.app/>
Generate an attractive and informative GitHub profile README with ease. Customize sections for bio, skills, and more.

COMPETITIONS / WORKSHOPS

SHOW ME THE CODE COMPETITION

Participated in the competition, organized by GREPBING, held on December 09, 2021.

MACHINE LEARNING WITH PYTHON

Attended the workshop, organized by IEEE Islamabad, held on March 21, 2024.
